

Access and retain the right talent with a new approach to job sharing

Are you struggling to find the perfect candidate that wants to work full time?

Are you looking for an employer who is open to the idea of job sharing?

Employers may like the theory of job sharing, but in practice find it difficult to recruit people who work harmoniously, or the practicalities of splitting the hours and seamless handovers. Sara will help you make job sharing work.

Job applicants want a career path, maybe to combine the security of employment with starting up on their own, or flexibility for family commitments.

At this breakfast event Sara will explore common recruitment dilemmas and provide some tips on how to make job sharing work successfully - from the perspectives of employer and job applicant.

Job sharing can help tap into new talent, as well as retaining existing valued staff.

To sign up please visit www.cambridgenetwork.co.uk/events or call us
